When he stands, Bear is as tall as a school bus.

With such great size and mighty strength, Bear rules the woods.

Wolf also lives in the forest where he hunts together with his family.

A group of wolves is called a pack.

A pack of wolves is very dangerous to any animal they attack.

Wolf can smell and hear other animals from far away.

This helps him to find food and to stay safe.

His gray fur helps him to hide and sneak up on his prey.

Today, Wolf has hunted a deer.

He has not eaten for many days so he is very hungry.

Wolf does not want to share his food.
